# Italian CRONUS projection screen

## CRONUS-SCREEN

Cronus Screens International Lt was founded in 2000 and has become one of the world's most respected manufacturers of high-quality projection screens. It is a high-tech projection screen manufacturer dedicated to producing high-performance screens. Headquartered in Turin, Italy and founded in 2000, CRONUS produces a variety of projection materials including front projection fabric, back projection fabric, and high gain anti light materials. We also offer a variety of projection ratios for customers to choose from, such as 1:1, 4:3, 16:10, 16:9, and a cinema specific ratio of 2.35:1. Our products include large display quick folding screens, high-end embedded ceiling pull wire electric screens, portable high-end electric floor pull screens, fixed frame screens for home theaters, best-selling pull wire electric screens, and high-end multi-purpose electric screens. There are more than 20 series and 500 single products of various types of long focus and short focus anti light screens. Every year, we provide screens for over 2500 cinemas and large screen venues worldwide, and our products are widely used in various applications worldwide.

CRONUS Screen has established branches in China, the United States, Japan, and Southeast Asia, working together with the US headquarters to expand its global branches, allowing people around the world to enjoy CRONUS Screen's products and the best service quality. In addition, CRONUS screens have sales outlets in India, Australia, Japan, New Zealand, Latin America, and Africa.

With the booming development of the Chinese economy and the rise of the film and television cultural industry, Kronos began to enter the domestic home theater field in 2010.
